The Pursuit of Perfect Sound

CH 800 S / CH 700 S / CH 650 S

Headphone amplifiers require good teamwork and the perfect connection. Thanks to their four pin plug, the CH 650 S, CH 700 S and CH 800 S high-end cables are optimally tuned to the fully symmetrical principle of the new Sennheiser HDVD 800 and HDVA 600 headphone amplifiers and allow for precise signal transmission with practically no distortion and without sound wave superposition.

- It is particularly suitable for HD 800, HD 700 and HD 650.
- High-quality materials such as oxygen-free copper cables and gold-plated contacts ensure the best possible sound quality.
- Silver coating on the CH 700 and CH 800 versions further minimizes resistance during sound transmission.
- Developed, designed and manufactured in Germany.
